

PADI Enriched Air Nitrox Diver

Diving with enriched air Nitrox gives you longer bottom times, shorter surface intervals and therefore more time underwater. Find out how to get a ***PADI Enriched Air Diver course*** with **Evasioni Blu Diving Ustica - Palermo (Sicily)**.

PADI Enriched Air Diver Program

What you will learn during your PADI Enriched Air Diver course:

- Considerations for diving equipment with enriched air
- Nitrogen absorption and decompression sickness
- The management of oxygen exposure
- How to analyze the content of the cylinder
- How the cylinders containing enriched air are marked
- How to set up your dive computer in dive mode with enriched air

The PADI Enriched Air Diver course is divided into three main parts:

1. Knowledge development (individual and classroom study)
2. Practice session in analysis and marking of cylinders and setting up of dive computer
3. An optional dive in open water. Additional cost of €40.

PADI Enriched Air Diver Prerequisites

1. *(Junior) Open Water Diver*
2. Minimum age 12 years

Credit/Certification PADI Enriched Air Diver

By completing your course you will receive your **PADI Enriched Air Diver specialty certification**. The Enriched Air Diver certification is a requirement for diving with enriched air.
