PADI Specialty Instructor

There are those who like underwater photography, there are those who love marine biology, there are those who get really excited about caves or wrecks ... All of us *divers* have our preferences and our passions in the world of *diving*. Teach your students what they love most, teach your students what you love most; teach *PADI* specialties and make diving even more captivating!

PADI Instructor Specialty Program

The *PADI Instructor* Specialty Courses we offer you:

- PADI AWARE – Dive Against Debris Diver
- PADI Emergency Oxygen Provider
- PADI Deep Diver
- PADI Digital Underwater Photographer
- PADI Drift Diver
- PADI Dry Suit Diver
- PADI Equipment Specialist
- PADI Enriched Air Nitrox Diver
- PADI Night Diver
- PADI Search and Recovery Diver
- PADI Self Reliant Diver
- PADI Sidemount Diver
- PADI Underwater Naturalist
- PADI Underwater Navigator
- PADI Wreck Diver

Each PADI Specialty Instructor course is divided into two main parts:

1. Knowledge development (individual and classroom study).
2. Practial session or open water dive to teach skills

PADI Instructor Specialty Prerequisits

To enroll for a PADI Instructor Specialty you need to be a *PADI Open Water Scuba Instructor* (*OWSI*).

Credit/Certification PADI Instructor Specialty

By completing the course, you will receive your PADI Specialty Instructor certification (of the specialty you have chosen), this will allow you to teach the PADI specialty to your students in complete independence. This certification can be credited as one of the five PADI Instructor specialties required to obtain the Master Scuba Diver Trainer certification.
